PROFESSIONAL SUMMARY

Software Engineering student with hands-on experience across the MERN stack, backend systems, and REST API development. Solved 300+ problems on Codeforces (Pupil rank) with strong foundations in data structures, algorithms, and competitive programming. Experienced in building full-stack, role-based platforms and collaborating in team-driven project environments.

TECHNICAL SKILLS

- Programming Languages:** C, C++, Java, Python, JavaScript, TypeScript, SQL
- Web Technologies:** HTML, CSS, Bootstrap, Tailwind CSS, React, Next.js, Node.js, Express.js, FastAPI
- Databases:** MySQL, PostgreSQL, MongoDB
- Tools & Platforms:** Git, GitHub, Docker

PROJECTS

Online Doctor Appointment System

[GitHub Repository](#)

- Built a full-stack healthcare platform with Patient, Doctor, and Admin roles.
- Implemented doctor search, appointment scheduling, prescriptions, reviews, payments, and admin reporting.
- Developed REST APIs using Node.js, Express.js, MySQL, and JWT authentication.
- Built the frontend using Next.js and TypeScript with responsive role-based interfaces.
- Integrated Redis caching, Cloudinary storage, PDF generation, and email notifications.

EduAI — AI-Powered Classroom Platform

Group Project

[GitHub Repository](#)

- Contributed to the development of a full-stack AI-powered classroom platform for students and instructors.
- Developed FastAPI REST APIs for authentication, classrooms, assignments, quizzes, discussions, and learning materials.
- Built and integrated the frontend using Next.js and TypeScript with backend REST APIs.
- Worked with PostgreSQL for data management and backend integration.

Smart Department Management System

Group Project

[GitHub Repository](#)

- Contributed to the development of a full-stack department management platform with Admin, Teacher, and Student roles.
- Implemented role-based authentication and dashboards for managing courses, attendance, assignments, notices, routines, and academic results.
- Developed backend REST APIs using Node.js, Express.js, and MySQL with JWT authentication and Zod validation.
- Built the frontend using Next.js and TypeScript and integrated APIs for role-specific, protected dashboards.

EDUCATION

BSc in Software Engineering

2023 – Present

Shahjalal University of Science and Technology (SUST)
CGPA: 3.70 / 4.00

ACHIEVEMENTS & ACTIVITIES

- Achieved **Pupil** rank on [Codeforces](#) with a maximum rating of **1247** and solved 300+ problems.
- Participated in the **ICPC Regional Preliminary Contest**.
- SciBlitz 2.0 — Finalist** (2025), a Science & Technology Competition focused on innovation, problem solving, and technical creativity.
- NEUB CSE Fest — Participant** (2025), a Hackathon & Technology Festival featuring programming contests, hackathons, and project-based competitions.

ADDITIONAL INFORMATION

- Languages:** English, Bangla, Hindi
- Interests:** Open Source, Competitive Programming, Web Development, Machine Learning
